

C15 HYDROCYCLONE

SPECIFICATION

Model	C15
Syphon Diameter	38mm
Syphon Length	800mm
Overflow Pipe Diameter	212mm
Mounting PCD	TBC

Single Pump / Single Cyclone Set Up

Cyclone Size	380mm
Pump Size	4x3
Max Output	Up to 100TPH

Single Pump / Double Cyclone Set Up

Cyclone Size	380mm
Cyclone Qty	2
Pump Size	6x4
Max Output	Up to 100TPH

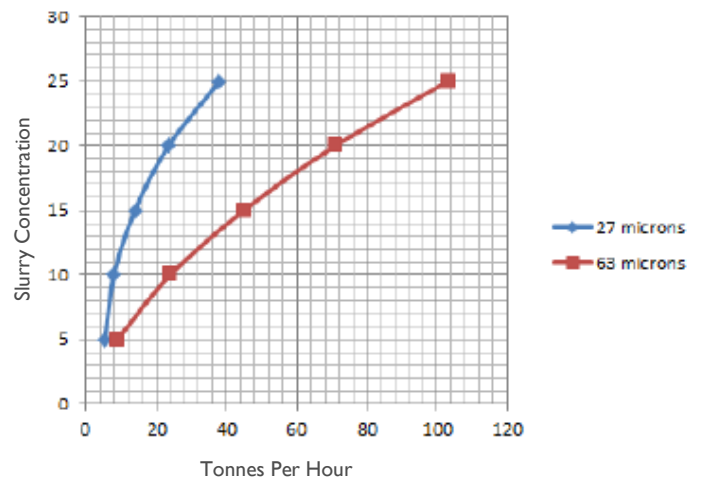

Cyclone Variables

Cyclone Size	380mm
Typical Cut Point	63 microns

ABOUT THE C15 HYDROCYCLONE

- Currently the smallest in the Gromatex hydrocyclone range
- 380mm feed chamber and a 4" inlet
- Typically paired with an 4x3 pump
- Max output up to 100TPH or 55 cubic metres per hour
- Desired operating range for slurry concentration is between 0 and 25%
- The standard cut point for this cyclone is 63 microns, however a range of cut points can be achieved from 27 to 63 microns
- Lined with the highest quality abrasive resistive rubber which is designed to work in the toughest applications
- The rubber has a shore hardness of 40IRDH
- Rubber abrasion resistance is 108
- The rubber is hot vulcanised to the steel body at pressure to ensure a top quality seamless liner

PERFORMANCE CURVE

ABOUT GROMATEX

Tried and tested in the harshest applications across the quarrying and mining industries internationally, Gromatex products have a reputation for being a cost effective solution to the challenge of moving abrasive fluids. Among the heavy duty rubber lined products included in this range are flexible hose, pipework (such as bends, tees and other similar parts) and hydro-cyclones – all long lasting, simple products designed to contain abrasive fluids. One of the key points of the range is the simplicity for the end user across all the products, from the design aspect to the fact that all common sizes are available in stock. Modular construction means the places that have the most wear can get the best attention. Ultimately our aim is to reduce our customer's maintenance and downtime anxiety and this drives us on to create ever tougher and more resilient products. Easy to specify and order from stock, designed to resist abrasive fluids for longer and flexible but strong. Gromatex - containing your abrasive fluids. Easy.
